WITH CORY AND CLIXIE

# Cory

Cory is a fun, colour changing chameleon, who is working hard to provide better service for Rocky Bay customers. He is named after a special computer program that will help organise and schedule appointments and provide better communications to you. Cory likes to surf, his favourite subject is computers and his favourite food is chocolate cake!

## ABOUT Rocky Bay

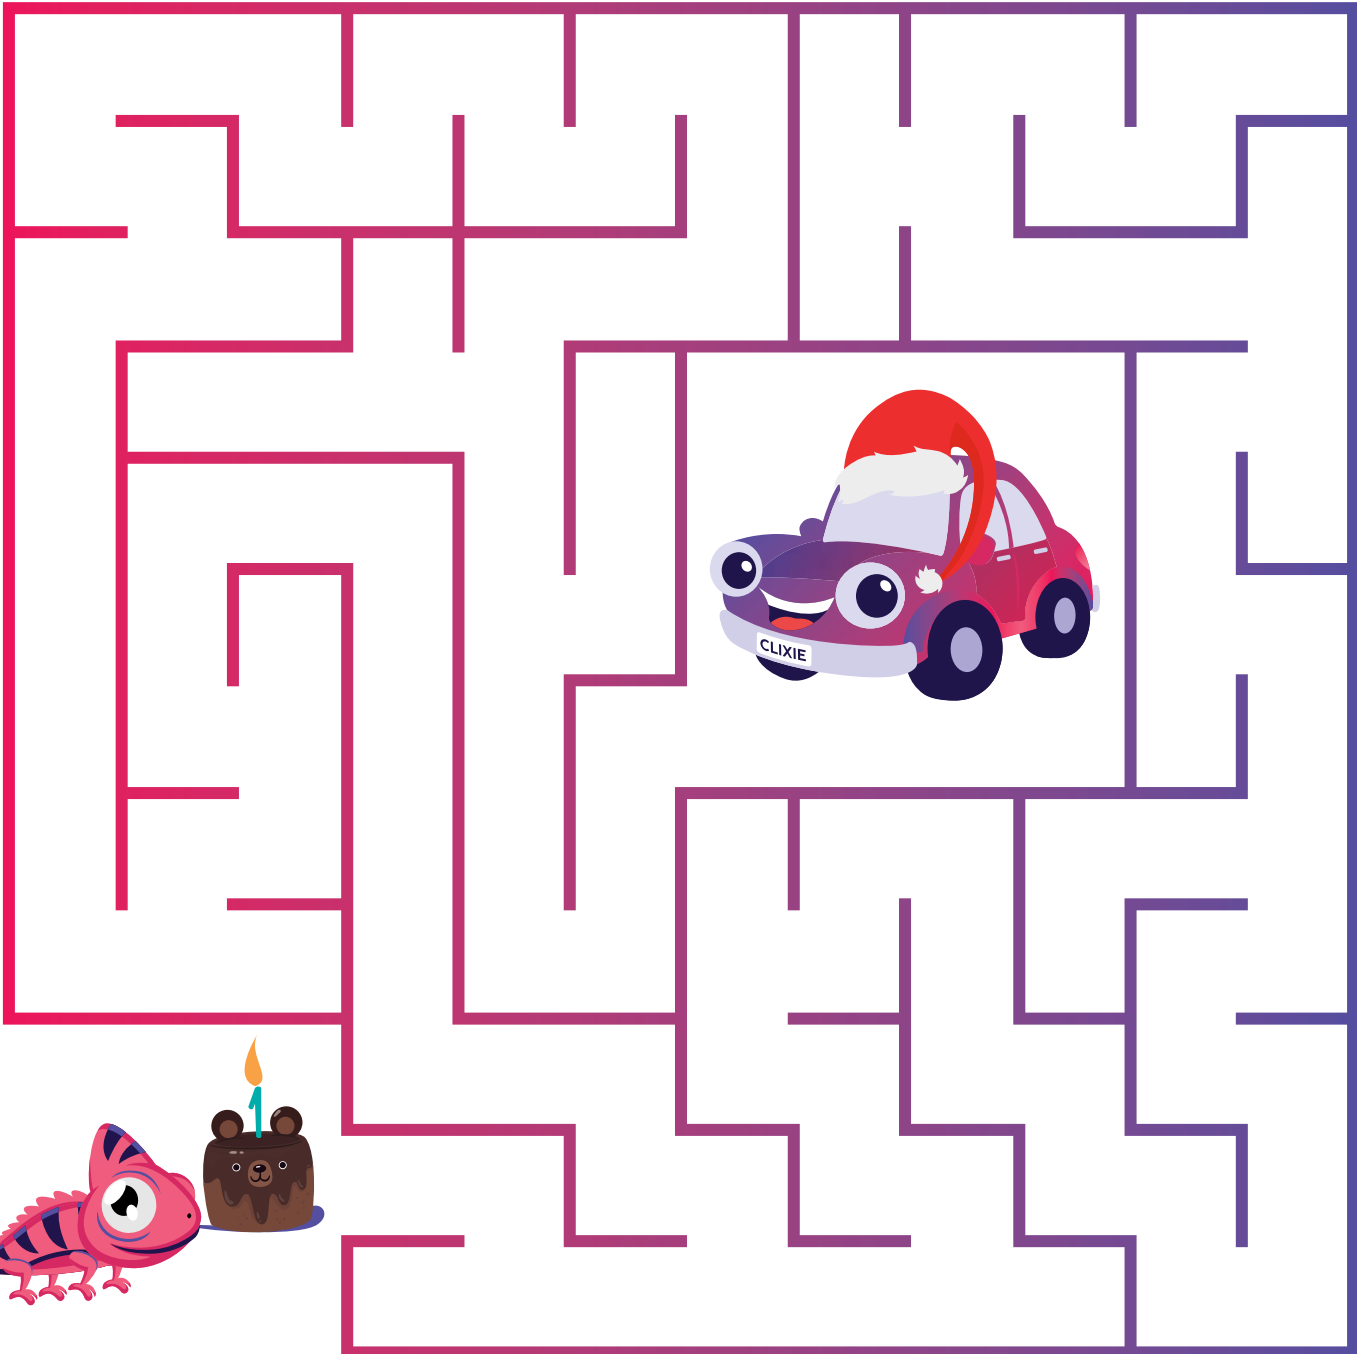

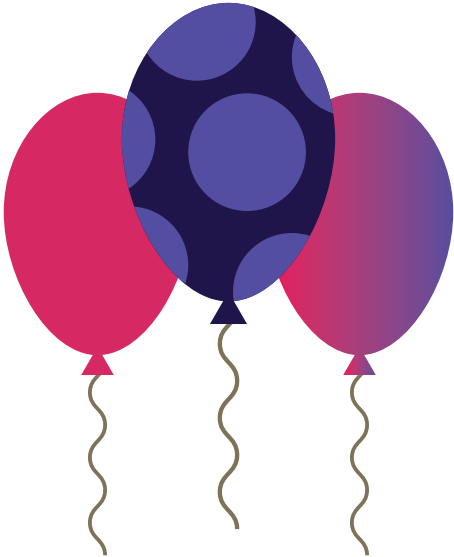

Rocky Bay has been helping people to realise their true potential since 1938. That means we're over 80 years old! But that doesn't mean we're slow and old fashioned – in fact, Rocky Bay staff use the very latest research and technology to help people with disability. No matter where you are, there's a Rocky Bay hub near you. Just look for the bright pink vans!

## Clixie

Clixie loves to drive! She loves driving so much she does it all day every day. Clixie's job is to monitor how far all of Rocky Bay's vans and cars travel, so that our customers only pay for the transport they need. She keeps track of the fleet and makes sure they are full of fuel and nice and clean! Clixie's favourite subject is maths, her favourite food is petrol (yuck!) and she likes nothing more than driving Cory along the coast to their favourite surfing spots.

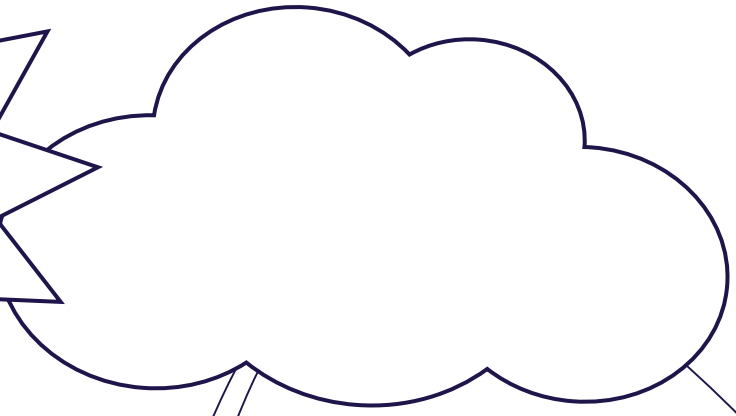

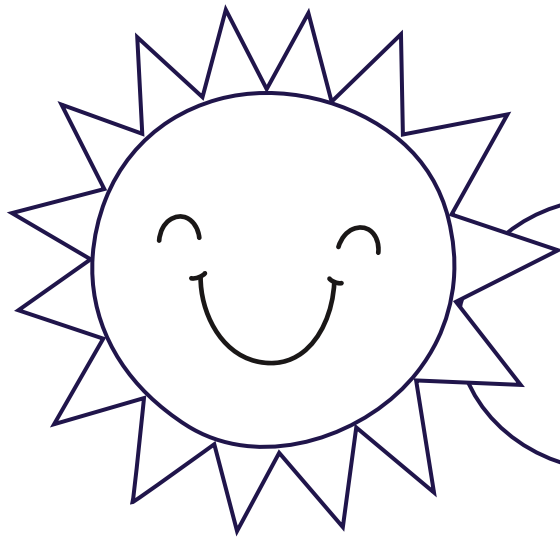

Help Cory to find his friend Clixie and deliver the yummiest birthday cake to her.

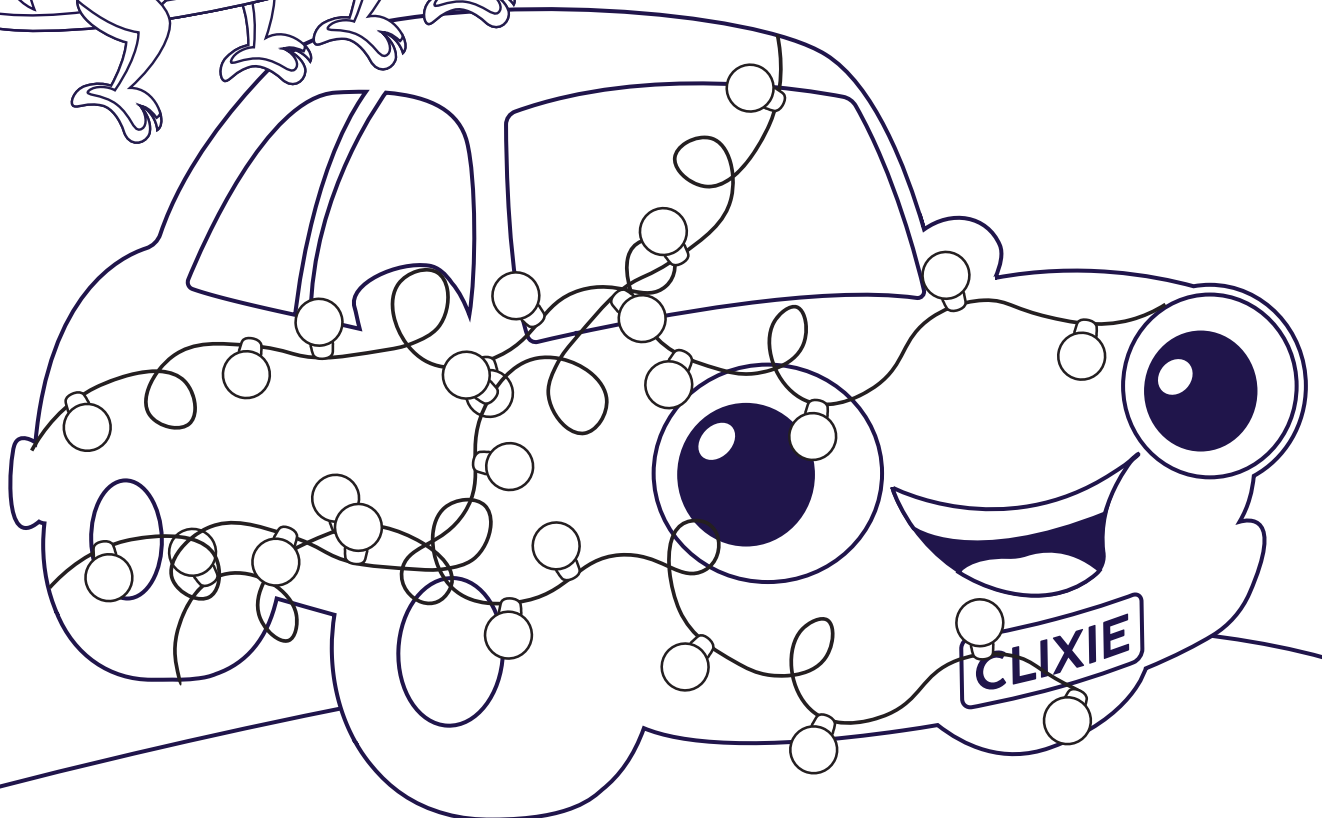

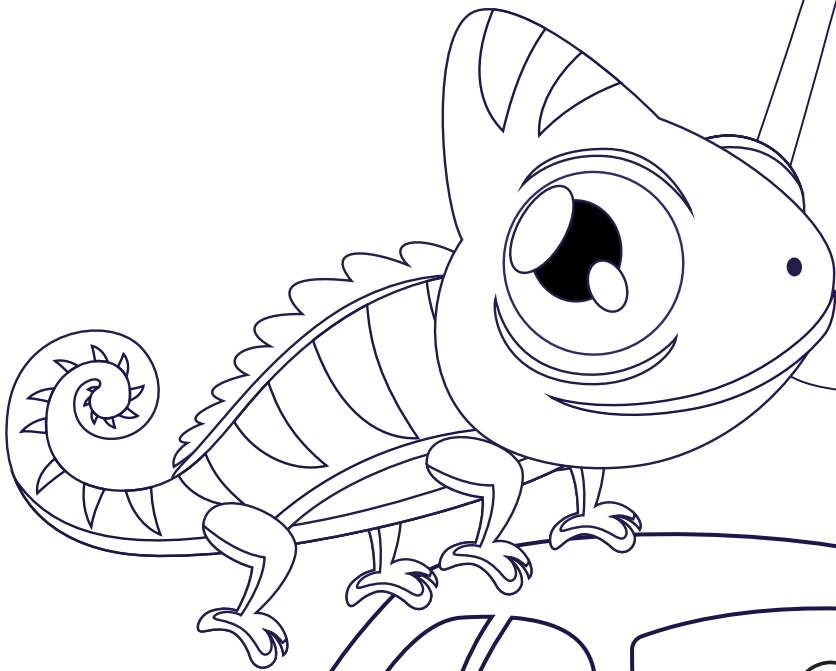

Cory and Clixie are on holidays! They both want to send a postcard, but there are 5 differences between these two – can you spot them all?

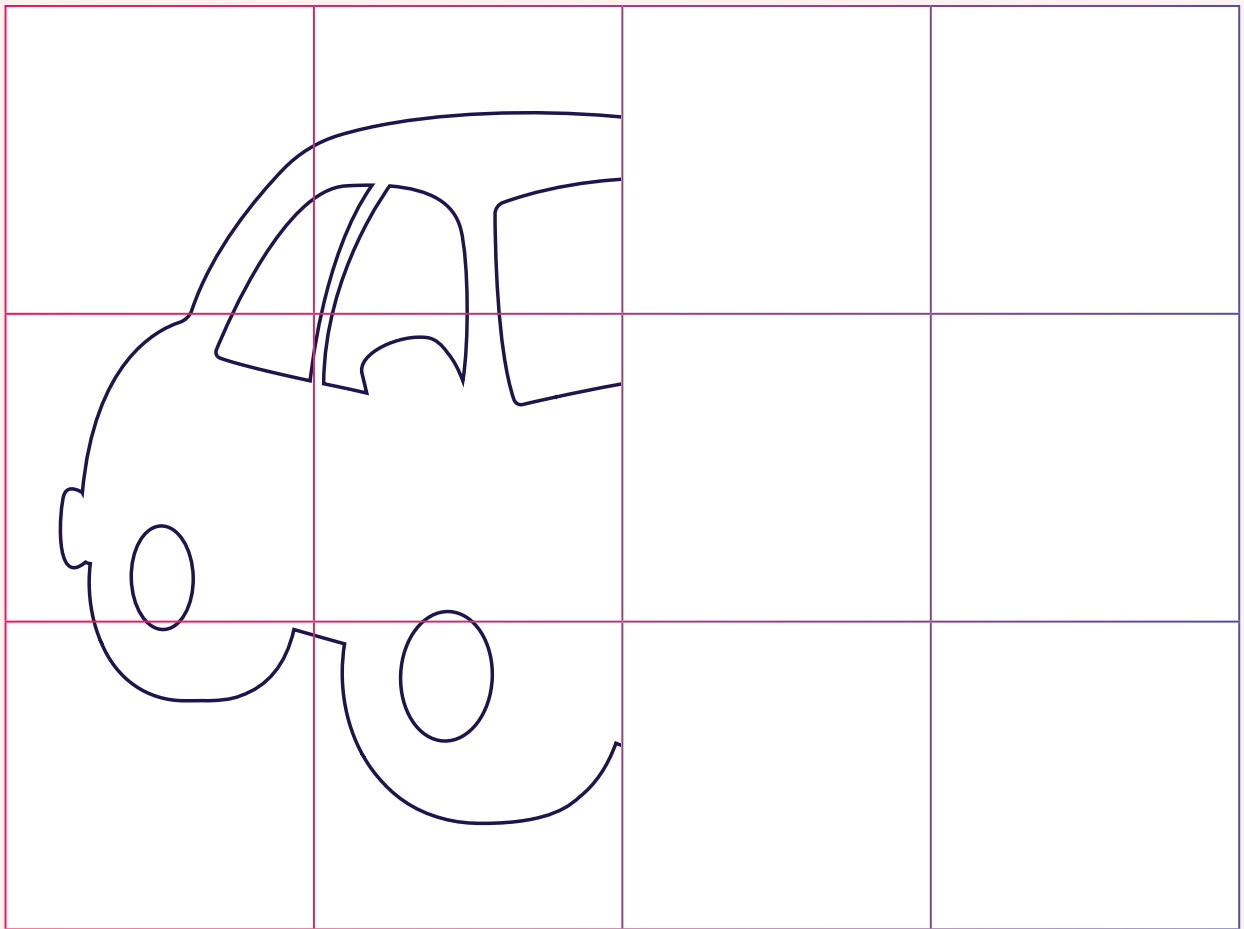

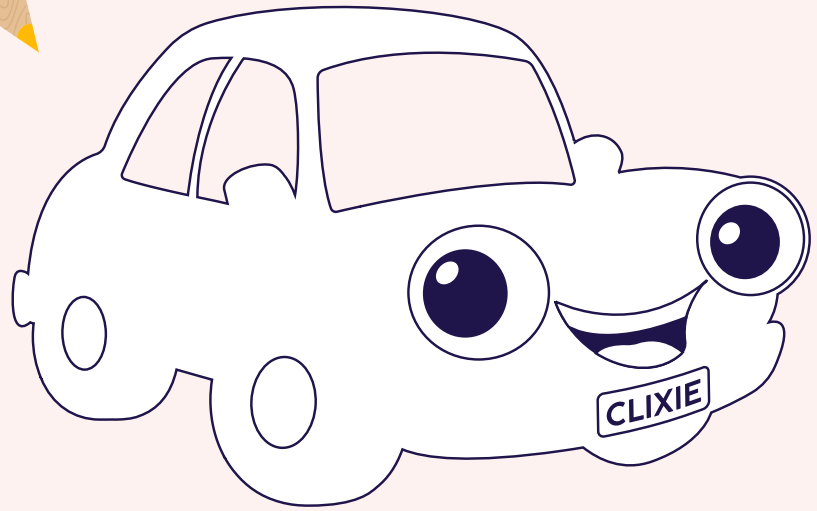

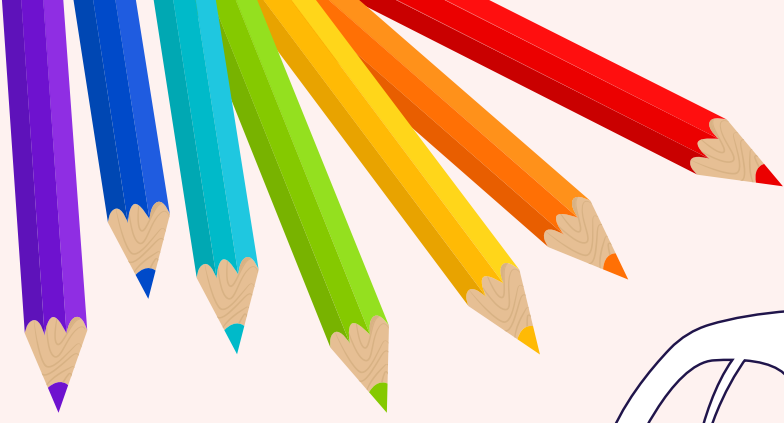

Cory and Clixie  
would love you to  
colour them in.

Can you guess their  
favourite colours?

Can you finish the drawing of Clixie?

Can you cut out the puzzle pieces and create a picture of Cory?

Stick the pieces onto the grey outline below.
